Professional Summary

Results-driven Computer Science graduate with 1.5+ year of professional experience in a fast-paced SaaS environment, with a demonstrated ability to operate across technical, operational, and marketing functions. Adept at problem-solving, cross-functional collaboration, and clear communication with both technical and non-technical stakeholders. Committed to continuous learning and delivering impact across every role undertaken.

Experience

Bit Code Technologies | Partnership Coordinator of **Paymentform.io** **September 2026 – Present**

- Executed SEO-driven outreach campaigns by prospecting ranking blogs, review sites, and SaaS publications through targeted keyword research, securing product listings and partnership placements for PaymentForm.io.
- Identified and engaged potential users through targeted community research and direct outreach across multiple social media, driving product awareness and user acquisition.
- Built and managed influencer and content creator partnerships across video sharing platforms, coordinating sponsored content and product demos to expand organic reach.
- Managed all social media accounts across LinkedIn, Instagram, Facebook, YouTube, Pinterest, and X, maintaining consistent brand voice and publishing regular content to drive community growth.
- Produced SEO-focused blog content to support inbound traffic growth and managed third-party listing requests and publication relationships through the company web platform.
- Gathered and synthesized product feedback from existing users to refine outreach messaging and identify user acquisition friction points.
- Monitored and analyzed competitor marketing strategies and positioning, translating findings into actionable outreach and content opportunities.

Bit Code Technologies | Technical Support Engineer **May 2025 – September 2026**

- Delivered IT support and technical troubleshooting across Zoho Desk (email), Tawk.to (live chat), Zoom/Google Meet, and AnyDesk/TeamViewer remote sessions, resolving hardware, software, and plugin-related issues for a global user base.
- Diagnosed and triaged complex WordPress plugin bugs, coordinating directly with the development team via Notion to document, prioritize, and track resolutions from user report to deployed fix.
- Conducted end-to-end pre-release testing and systems design & testing across 7 WordPress plugins and 1 SaaS product, validating new features, bug fixes, and integrations, functioning as the de facto QA layer for all releases.
- Served as primary IT support liaison and project support contact between end-users and the development team, translating technical bug reports into structured tickets and managing IT operations and resolution communication.
- Drove customer retention and revenue by negotiating product discounts, structuring payment plans, and closing upgrade conversations as a hybrid support-sales representative.
- Managed and moderated community support across the WordPress.org forum, Company Forums, Facebook community, YouTube channel, and AppSumo marketplace, maintaining response quality and brand voice.
- Collaborated with the documentation and product teams by supplying troubleshooting steps, structured feedback, and technical data used to improve releases and end-user guides.

Skills

Languages:	C++, JavaScript, Python
Frontend:	React.js, HTML5, CSS3, Tailwind CSS
Backend:	Node.js, Express.js, FastAPI, PHP
Databases:	PostgreSQL, Supabase, Prisma ORM
ML / AI:	TensorFlow, Keras, Pandas, NumPy, Matplotlib
Support Tools:	Zoho Desk, Tawk.to, AnyDesk, TeamViewer, Notion
Dev Tools:	Git, GitHub, Postman, WordPress
IT Support:	IT Support / Technical-Support, IT Infrastructure Management, IT Operations, Computer Network Operations, Computer Maintenance, Technical / Basic IT Troubleshooting, IT Hardware Support, Project Support
Marketing:	Outreach, Influencer Marketing, Community Marketing, Email Prospecting, Competitor Analysis

Education

International Islamic University Chittagong Jan 2020-Feb 2025
Bachelor of Computer Science and Engineering

Feni Govt College 2019
Higher Secondary School Certificate

Shaheen Academy School and College 2017
Secondary School Certificate

Projects

Buzz | Repo
- Reduced message delivery latency by implementing **Socket.IO** event-driven architecture, enabling sub-100ms real-time communication across concurrent users.
- Improved frontend state consistency by integrating **Zustand** for centralized state management, eliminating prop-drilling across 10+ components.
- Secured user sessions by implementing **Supabase** authentication, reducing unauthorized access vulnerabilities to zero in testing.

RecipeFinder | Repo
- Accelerated recipe retrieval by 60% through optimized third-party API integration and efficient **PostgreSQL** query design with Prisma ORM.
- Enhanced data reliability by implementing robust CRUD operations with **Supabase**, supporting seamless multi-user favorite management.
- Improved developer velocity by structuring a clean **RESTful API** layer using **Express.js**, reducing future endpoint integration time by 40%.

Potato Disease Classification | Repo
- Achieved 94%+ classification accuracy on 2 potato disease categories by designing a CNN model using **TensorFlow** and **Keras** trained on augmented image datasets.
- Reduced inference response time by deploying a **FastAPI** real-time detection endpoint, enabling sub-second predictions from frontend input.
- Increased model generalization by applying image preprocessing pipelines with **Pandas**, **NumPy**, and **Matplotlib**, reducing overfitting by 30%.

Online new Summarizer | Repo
- Automated end-to-end news extraction and summarization by building a **FastAPI** + **BeautifulSoup** pipeline, processing articles in under 3 seconds.
- Enabled persistent data access by designing a PostgreSQL + SQLAlchemy backend, supporting storage and retrieval of 500+ scraped articles.

Research Paper

Detection of Autism Spectrum Disorder using machine learning and deep learning techniques (link)

Certification

- Developing Back-End Apps with Node.js and Express by Coursera (link)
- PostgreSQL: Become an SQL developer (link)

Languages

English, Bangla
